**DETAILED ACTION**

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I , claim(s) 21-22 & 26, drawn to a composition comprising vascular tissue in a carrier.

Group II, claim(s) 1-10 & 37-40, drawn to drawn to a method for enhancing hematopoiesis.

Group III, claim(s) 11-15 & 41-43, drawn to as assay for a putative modifier of hematopoiesis.

Group IV, claim(s) 16-19, drawn to a method for isolating a hematopoietic factor.

Group V, claim(s) 20 & 44-45, drawn to a method for isolating a hematopoietic stem cell.

Group VI, claim(s) 23-25, drawn to drawn to a kit for promoting hematopoiesis.

Group VII, claim(s) 27, drawn to a method of isolating a blood vessel.

Group VIII, claim(s) 28-30, drawn to an animal model.

Group IX, claim(s) 31-33 & 46, drawn to a method for making an animal model.

Group X, claim(s) 34, drawn to a stem cell.

Group XI, claim(s) 35-36, drawn to a growth factor.

Group XII, claim(s) 31-33, drawn to a method for making an animal model.

The inventions listed as Groups I-XII do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the single inventive concept is a composition of isolated vascular tissue and that is not novel. Vascular tissue that has been isolated and placed in a carrier is notoriously old and well known in the art, e.g. vein are isolated and maintained in a carrier before grafting.

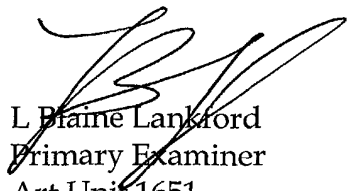

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
